

## Crosby Blinds Duette Fabric U Values

Use Duette® Architella® and Duette® Shades to control the flow of energy in and out of your windows, and dramatically reduce heating and cooling costs.

The lower the U-Factor, the greater the insulation.

U-factors represent the combined total of the product's U-Factor and the U-Factor of Glazing C (according to EN14501).

Double glazing 4/16/4 mm, low emissivity coating in position 3: U-value 1,2 - g-value 0,59
